

Installing Ubuntu With No Handlebars

Romeo Solano

CC 234

Sat 10:30 am - 11:00 am

After this talk, you will be able to install Ubuntu Server with your hands tied behind your back, whether it be on a virtual machine or bare metal, with or without a network connection, in a datacenter or in your lap. We will also discuss some of the design decisions, limitations, and long-standing bugs in Subiquity, along with workarounds.

Lecture (30 Min + Q&A)
Some experience required
DevOps
OSS Distributions
In-person
umpteenth time speaking
anywhere

Target Audience

Anyone who installs Ubuntu
