

## Got a suggestion?

[Fedora](#) with default Gnome.

Seeking distribution and software suggestions for running on a modest [Dell Latitude 5410](#).

[Honest review on it](#).

- i5
- 8 - 16gb ram assumed
- Intel Graphics on 14" 1080p display.

## Skipping those I've already used

Not accepting [Kubuntu](#), [Arch Linux](#), [Debian](#), [Kali](#), or [KDE Neon](#). All other options appreciated! [Edit button click here](#), or lives bottom right of wiki.
